PRESS RELEASE

The Howes Cave Road Bridge Replacement Project in the Town of Cobleskill will begin the week of May 18, 2015 with an anticipated completion and reopening during the late fall of 2015. The start of construction will require the closing of the bridge to thru traffic, therefore the traveling public will have access to properties on each side of the creek from either Caverns Road or Sagendorf Corners Road. Easterly access will be via the reopened portion of Howes Cave Road which will be lined with concrete barriers and fencing.
